PREVENTING HARM

NIO RADAR MANAGEMENT SYSTEM

NetworkedIO™ (NIO) serves as the central intelligence hub of the Spotter perimeter security system. It seamlessly connects a variety of devices such as radar sensors, cameras, video management systems (VMS), and other controllable devices to provide situational awareness and automated security responses to identified threats.

Primary Features

- **Lowest nuisance alarms in the industry**
- Advanced AI classification
- Customizable filters
- System health alerts
- Integration with major VMS and annunciator systems
- Integration friendly API
- Site Level Management All On One Screen
