# SPOTTER

## MOBILE SURVEILLANCE KIT (MSK™)

# A Full Anti-Drone Suite - On a Tripod

**Everything** you need for event/temporary site security in one compact, fully integrated system.

Easy to **move**, easy to **power**, easy to **operate**

### *PTZ Camera*

Mount any PTZ Camera on the top of the MSK System and the system will autocue its lens to detected targets

### *REMOTE DRONE ID (RDID ™)*

Track drones **and** drone pilots over a wide area, 3km radius (700+ acres), with zero false alarms

### *LIVE STREAM*

Live stream the MSK's surveillance data from anywhere in the world via a local network connection or Starlink satellite

### *SPOTTER RADARS*

Choose any Spotter Global radars to provide wide-area ground surveillance (100 m-1500 m detecting walkers)

**FIRST TO DETECT. FIRST TO PROTECT.™**

## MSK Features

- Compatible with C, CK, GK, GX, and AX Series Radars from Spotter Global
- Tripod/Mounting Hardware/Cables
- NetworkedIO (NIO) C2
- Custom built with the sensor suite you need
- Five Sensor Mounting Points (1 Top, 4 Sides)
- License Points for 2 radars, 1 RDID, and 1 Camera
- Purchase or lease options available
- NOTE: Camera not included. MSK is compatible with most camera manufacturers

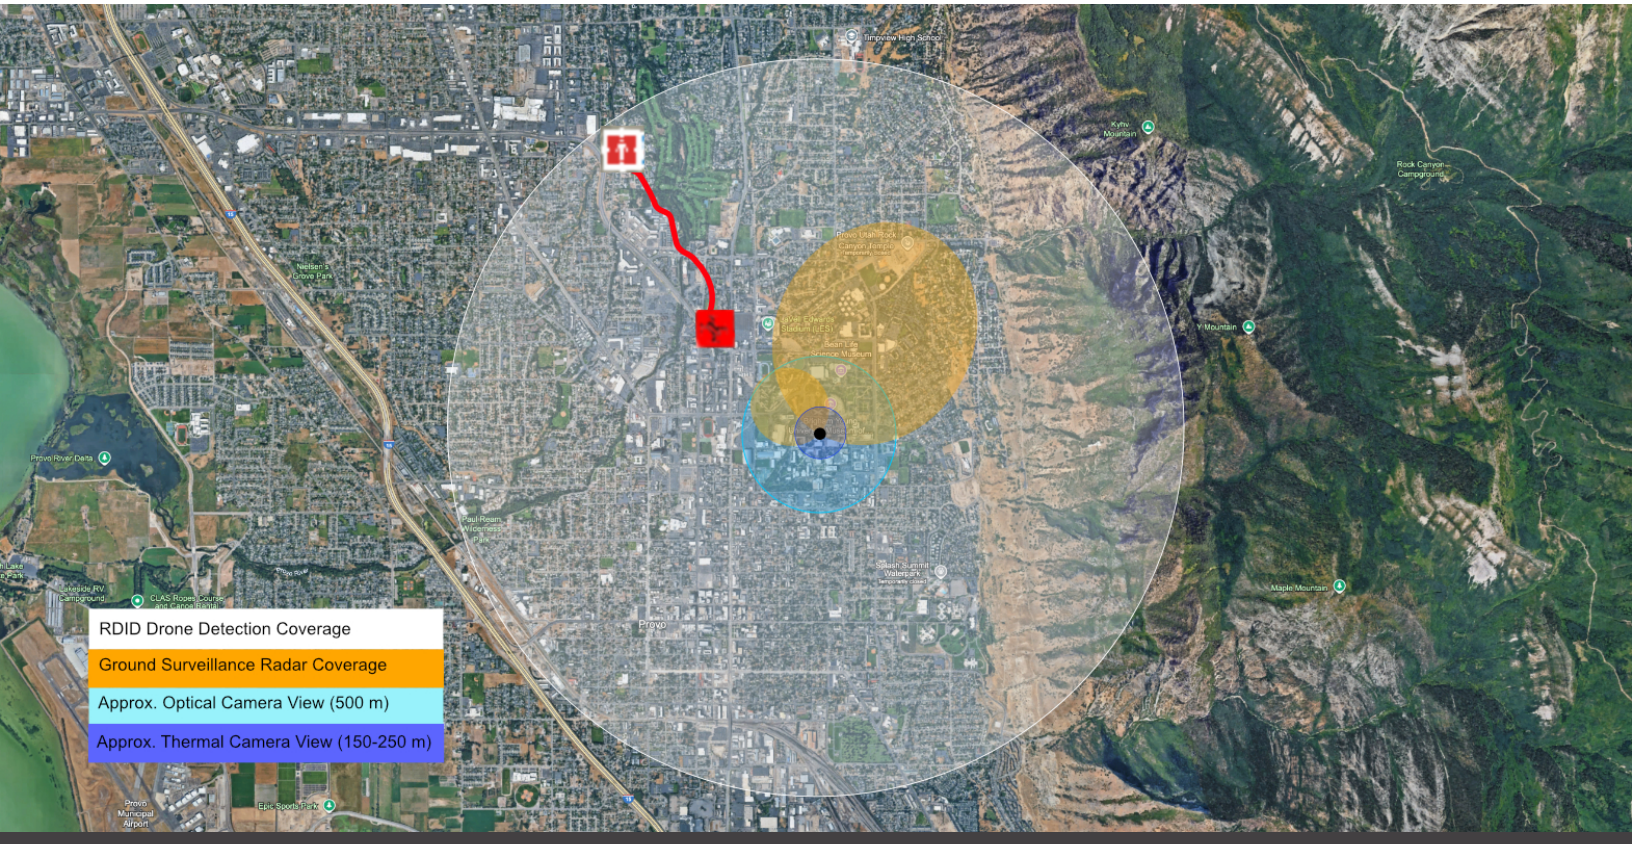

NetworkedIO (NIO) serves as the system's centralized C2 engine, orchestrating autonomous slew-to-cue optical verification and ensuring full-spectrum interoperability between onboard sensors and external third-party platforms.

## MSK Specifications

| | |
|---|---|
| Dimensions | 10.75 X 10.75 X 10.33 IN |
| Temperature Ranges | -25 C to 65 C |
| Input Voltage | 24V-36V |
| Power Consumption | Min: 15 Watts<br>Max: 325 Watts |
| Base Weight | 33 lbs |

*Total weight varies based on sensors and camera used.

| | |
|---|---|
| GPU | NVIDIA® Ampere<br>2048 CUDA® cores<br>930 MHz Max<br>MADE IN USA |
| CPU | 8-core Arm® Cortex®-A78AE CPU |
| RAM | 16GB 256-bit LPDDR5 |
| Long-term Memory | 256GB NVMe |
| Output Format | JSON, Web UI, Onvif, XML |
| Certifications | FCC, CE, RoHS, REACH |
